PROFESSIONAL SUMMARY

UX Designer and Human-Computer Interaction graduate with experience in UX research, usability testing, prototyping, web development, and interaction design. Combines 10+ years of customer-facing leadership with expertise in Figma, HTML/CSS/JavaScript, usability testing, and cross-functional collaboration to design intuitive digital experiences and solve user problems.

EDUCATION

Master of Science in Human-Computer Interaction May 2026
University of Maryland, College Park, MD Cumulative GPA: 3.97

Bachelor of Science in Information Science May 2022
University of Maryland, College Park, MD Cumulative GPA: 3.72

TECHNICAL PROJECTS

PCC Client Portal, *HCIM Capstone Project, UMD* September 2025–May 2026

- Collaborated with a four-person UX team to redesign a responsive client portal for the Primary Care Coalition.
- Conducted usability testing, stakeholder interviews, and user research that identified navigation challenges, confusing terminology, and inefficient task flows. Collaborated with the team to redesign the information architecture, simplify navigation, and improve the overall user experience.
- Created wireframes and interactive prototypes in Figma and Miro, presenting design recommendations to clients and iterating based on feedback.

NASCAR Website October 2024–December 2024

- Developed a responsive NASCAR statistics website in Glitch/VS Code using HTML, CSS, and JavaScript to enable users to explore and compare driver statistics through an interactive interface.
- Designed prototypes in Figma and Integrated JSON data to dynamically populate driver statistics and improve website scalability.

ELWG Website, *Integrated Capstone for Information Science, UMD* January 2022–May 2022

- Collaborated on the design and development of a responsive website using HTML, CSS, JavaScript, GitHub, and Figma while following user-centered design practices.
- Worked within a collaborative development workflow using GitHub to manage code contributions and version control.

Movies Database, *Dynamic Web Applications, UMD* September 2021–December 2021

- Developed a relational movie database application with teammates using SQL, GitHub, and VS Code that enabled users to search for movies, actors, and ratings efficiently.
- Designed relational database schemas and optimized SQL queries to improve search performance and data retrieval.

PROFESSIONAL EXPERIENCE

Assistant Manager, *China Star, Perryville, MD* July 2014–Present

- Managed daily operations serving 100+ customers per day, processed 100+ transactions accurately, and resolved customer concerns during high-volume shifts.
- Managed inventory, financial reporting, POS administration, and operational workflows to improve restaurant efficiency and support daily business operations.
- Automated sales reporting for daily revenue reconciliation and expense tracking using Excel and the POS system, improving reporting accuracy and reducing administrative workload.

LEADERSHIP

Event Planner (Internal), *UXTerps, UMD* July 2025–June 2026

- Coordinated logistics and event setup for UXTerps programs, improving team communication and streamlining event preparation.
- Designed event registration forms and supported attendee check-in and logistics for networking and internship events serving students and industry professionals.

Member, *Graduate Student Advisory Council, UMD* June 2025–May 2026

- Represented graduate student perspectives by advocating for improvements related to internship opportunities, international student fees, and campus engagement.
- Presented priority concerns around international fees, student relations, and internships in council discussions, elevating 3 issues for review.

SKILLS

- **Programming:** HTML, CSS, JavaScript, Python, SQL, C++
- **UX Methods**: User Research, Usability Testing, Prototyping, Wireframing, Interaction Design, Visual Design
- **Design Tools:** Figma, Canva, Miro, Weebly
- **Software:** GitHub, Visual Studio Code, Excel, Google Sheets, MySQL, Jupyter Notebooks
